Swan Lake Park was developed by endless hours of volunteer commitment from the Swan Lake Renaissance group. When completed in 2007 the Park was donated to the Town of Liberty. Along side the park are tennis and basketball courts owned by the Stevensville Hotel which are graciously donated to the Town of Liberty every summer for public use. Swan Lake Park is also one of a handful of locations in Sullivan County that is lit at night by solar powered light posts that were received through the Sullivan Renaissance program.
